Drywall partitions plan

Sheet no. **DP1.7** /41

Format A3 S1:75

ID	Length, m	Height, m	m²	t, mm	Profile	Boards
D-W10	1.80	2.75	4.95	100	CW 75×50 / UW 75×40, 600 c/c	2×12.5 mm board (moisture-resistant in wet zones) + 50 mineral wool
D-W11	1.60	2.75	4.40	100	CW 75×50 / UW 75×40, 600 c/c	2×12.5 mm board (moisture-resistant in wet zones) + 50 mineral wool

Drywall partition detail (section)

1. 12.5 mm board — 2 layers each side, staggered joints
2. CW 75×50 studs at 600 mm; UW 75×40 on floor and ceiling on isolation tape
3. Acoustic insulation — 50 mm mineral wool
4. Wet zones — moisture-resistant board + waterproofing 200 mm up from floor (full height in showers)
5. Backing for wall cabinets and TV — 50×40 timber / 12 mm OSB per elevations

Delivery	9	77 000	1%	1
Installation	6	338 600	3%	0
Contingency	1	301 000	2%	0

Total (known prices)	**12 501 468**
incl. confirmed store prices	434 900
incl. estimated (works, formula-priced items)	4 734 220
incl. DEMO catalogue	7 332 348
Budget range	12 501 468 – 12 501 468 AMD

- The estimate contains DEMO catalogue data — these are not real offers.
- Prices and availability come from public sources and may change. Supplier confirmation is required before payment.
- 1 on-request items are excluded from the total; the upper bound uses typical category prices.
- Electrical, lighting, plumbing and heating layouts are a preliminary proposal pending specialist review.

Estimate generated 2026-10-21 21:58 UTC · FX: {'AMD': 1.0, 'USD': 387.0, 'EUR': 452.0, 'RUB': 4.8}

Sheet title

Specification & estimate

Suppliers, lead times, 3D

Sheet no. **DP5.4** /41

Format A3

Accuracy level: Verified Design

Recognition confidence: 86% · Control dimensions: W1=9600

AI assumptions and uncertainties

[warning] Kitchen water points taken from the typical building layout — verify on site
[info] Balcony glazing type inferred from photos with low confidence
[critical] Wall W7 is assumed non-load-bearing (120 mm brick). Demolition only after structural engineer approval

Ergonomic and structural rule checks

[warning] Sink is 1.6 m from the drain — slope or pump needed
[warning] Wall W7: load-bearing status unconfirmed — expert opinion required
[warning] 4 made-to-measure items — order only after survey verification

Approval log

Variant not approved yet

Designer: signature / date

Responsible specialist (survey and structural check): signature / date

Client: signature / date

AI does not issue a construction package on its own. The documents become working drawings only after review and signature by a responsible specialist; changes are recorded in the version log.
